

## What do we mean by HIV/AIDS and Education? A Draft Construct

s.l.: s.n., 2001. 2 p.

### Authors:

Coombe, Carol

### Description:

This is a paper articulating HIV and Education and attempts to set out particular significant issues for education practitioners and researchers. Issues discussed range from education and training, management, policy and planning issues, educator development and support issues, gender concerns to international agreements, legislation and human rights issues. Conclusion is that the broader concept of HIV and education means that in practice, each educator is responsible in their own domain to make sense of what is happening and to react appropriately.
