UNESCO  
unicef

### Description:

L'éducation sur la santé est un droit fondamental pour tous les enfants. La santé est liée de près à la réussite scolaire, à la qualité de la vie et à la productivité économique. Le fait d'acquérir une connaissance, des valeurs, des aptitudes et des pratiques liées à la santé donne aux enfants la possibilité de mener une vie saine et de devenir des agents du changement pour une meilleure santé dans leurs communautés. Ce rapport, qui est issu d'une consultation de l'OMS/UNESCO/UNICEF sur les stratégies d'exécution de programmes d'enseignement et de promotion de la santé dans les écoles primaires, décrit quelques principes et stratégies d'ordre général visant à guider les actions à prendre.
