

At the crossroads: accelerating youth access to HIV/AIDS interventions

UNAIDS, 2004. 12 p.

Organizations:

UNAIDS Inter-Agency Task Team on Young People

Description:

Young people remain at the centre of the epidemic in terms of transmission, vulnerability, impact, and potential for change. Today's young generation, the largest in history, has not known a world without AIDS. Of the over 1 billion young people worldwide, 10 million are currently living with HIV. If we are to reach the global targets set forth in international agreements, urgent action and increased investment must be made in HIV prevention, treatment and care programmes specifically for young people.
