

## The state of World Population 2001. Footprints and milestones: population and environmental change

New York: UNFPA, 2001. 80 p.

### Title other languages:

[L'Etat de la population mondiale 2001. Empreintes et jalons : Population et changement environnemental](#)

[El estado de la población mundial 2001. Huellas e hitos: Población y cambio del medio ambiente](#)

[The state of World Population 2001. Footprints and milestones: population and environmental change \(in Russian\)](#)

[The state of World Population 2001. Footprints and milestones: population and environmental change \(in Arabic\)](#)

### Organizations:

UNFPA

### Description:

Human activity is altering the planet on an unprecedented scale, the report points out. More people are using more resources with more intensity and leaving a bigger "footprint" on the earth than ever before. The report examines the close links between environmental conditions, population trends, and prospects for alleviating poverty in developing countries. It finds that expanding women's opportunities and ensuring their reproductive health and rights are critically important, both to improve the well-being of growing human populations and to protect the natural world.
