Games for adolescent reproductive health: an international handbook

Organizations:
Program for Appropriate Technology in Health

Description:
The handbook outlines how to games can be used to provide youth with information and skills about sex and sexuality to protect them from HIV and other STIs, HIV/AIDS, unwanted pregnancy, rape, and emotional and physical violence. It includes contributions from adolescent health experts around the world, including relevant theory, 45 games to play, card sets to photocopy and cut out, and tips on how to create your own game.
