

State of world population 2003. Making 1 billion count: investing in adolescents' health and rights

New York: UNFPA, 2003. 84 p.

Title other languages:

[Etat de la population mondiale 2003. Un milliard à ne pas oublier : Investir dans la santé et les droits des adolescents](#)

[Estado de la población mundial 2003. Valorizar a 1.000 millones de adolescentes: inversiones en su salud y sus derechos](#)

Organizations:

UNFPA

Description:

This year's State of the World Population report examines the adolescents' condition, in the context of changing social norms and lifestyles, including weakening of family support systems, amid globalization and urbanization. The report provides country-specific examples of projects that combine life skills education, including sexuality education, and peer counselling with access to services and points out the high costs and social consequences of failing to adequately meet adolescents' reproductive health and rights.
