

Plan for the national multisectoral monitoring and evaluation for HIV/AIDS, 2006/7-2008/9

Windhoek: Namibia. Ministry of Health and Social Services, 2006. 76 p.

Organizations:

Namibia. Ministry of Health and Social Services, Directorate for Special Programmes (HIV/AIDS, TB and Malaria)

Description:

International guidelines stipulate that good HIV/AIDS M and E Systems include a number of components: Existence of an M and E unit; Clear goals and objectives of the M and E system; A core set of indicators and targets; A clear plan for data collection, analysis and dissemination. Namibia's M and E System for HIV/AIDS takes these requirements into account, and arranges them in an operational framework that is implementation-focused. Thus, the National M and E plan highlights the following features of the National HIV/AIDS M and E system: Response M and E Subdivision within MoHSS; Coordination: key line ministries (public sectors), civil society, private sector, development partners and coordination mechanisms; Indicators; Data management (tools, collection, databases, analysis, and dissemination).
