

## Plan national de lutte contre le VIH/SIDA et les IST 2010-2014

Paris: Ministère de la santé et des sports, 2010. 266 p.

### Organizations:

France. Ministère de la santé et des sports

### Description:

Le cinquième plan national de lutte contre le VIH/SIDA et les autres infections sexuellement transmissibles (IST) 2010-2014 constitue le principal outil de programmation dans la lutte que mènent les pouvoirs publics et leurs partenaires - professionnels de santé, acteurs économiques et milieu associatif - contre ces infections. Il couvre la période de cinq ans de 2010 à 2014, mais pourra s'adapter aux évolutions qu'elles soient épidémiologiques, scientifiques, médicales, législatives, réglementaires, ou comportementales. Le plan national de lutte contre le VIH/SIDA et les autres infections sexuellement transmissibles (IST) 2010-2014 intègre une approche populationnelle. Cela signifie qu'il prévoit des stratégies et des actions spécifiques à l'égard des publics les plus exposés et les plus vulnérables par rapport au risque de transmission du VIH et des IST : hommes ayant des rapports sexuels avec les hommes (HSH) et lesbiennes, bi et transsexuel; (les) (HSH et LBT) ; migrants/étrangers ; autres populations en situation de vulnérabilité : personnes détenues, usagers de drogues et personnes prostituées. Ces stratégies et actions spécifiques sont énoncées dans le présent plan et valorisées dans les programmes populationnels.
