Description:

The AIDS Legal Network (ALN), in collaboration with Her Rights Initiative (HRI), South Africa Positive Women Ambassadors (SAPWA), South Africa Partners, and the Mitchell's Plain Network Opposing Abuse, engaged in a study to assess perceptions and experiences of violence and other rights abuses against women living with HIV. The project intended to assess and document positive women's realities and experiences of gender violence based on and in the context of HIV; as well as to build an evidence and knowledge base on HIV-related violence and other rights abuses – so as to enhance women's access to, and benefit from available HIV prevention, testing, treatment, care and support services without fear of discrimination, abuse and other rights violations.
