

Integrating strategies to address gender-based violence and engage men and boys to advance gender equality through National Strategic Plans on HIV and AIDS: Meeting Summary

Johannesburg: ATHENA Network, 2013. 44 p.

Organizations:

ATHENA Network

Conference:

Regional Eastern and Southern Africa consultation to strengthen attention to gender-based violence in National HIV and AIDS Plans and other critical policies. Johannesburg, South Africa December 2012

Description:

National strategies and plans – focusing on HIV and beyond – are key platforms for articulating an HIV response that advances gender equality, champions women’s rights, engages men and boys, and ends GBV as a cause and consequence of HIV. As such, the Johannesburg December 2012 meeting supported delegations from six countries to review their current national policies, strategies, and plans, and assess the strengths and weaknesses of these plans with regard to addressing GBV and engaging men and boys for gender equality. The policy analysis, and related discussions, informed the development of country action plans to strengthen cross-cutting attention to gender equality, GBV, and engaging men and boys in their national planning processes and forthcoming national HIV strategies and plans.
