Urban adolescent SRH SBCC implementation kit

2015.

**Title other languages:**
Le manuel de mise en œuvre pour la CCSC de la SSR destinée aux adolescents en milieu urbain

**Organizations:**
Health Communication Capacity Collaborative HC3
United States Agency for International Development, USAID

**Description:**
This tool helps develop programs for urban adolescents on sexual and reproductive health and behavior change. It is divided into four parts: Part 1 provides the background and information on how to use the I-Kit. Part 2 includes the seven essential elements of program planning and interactive worksheets. Part 3 provides strategies to address program implementation challenges. Part 4 encourages to share what has been learned. Then, additional resources are provided for further information. The Help section includes acronyms, glossary, icon key, and references.
