Description:

This set of 14 individual scripted lesson plans was developed to support school-based delivery of comprehensive sexuality education (CSE) in East and Southern Africa. The scripted lesson plans are intended to provide teachers with material often lacking in existing life skills and CSE curricula, which can be used to supplement existing resources and support the delivery of CSE. Topics and age ranges for the lesson plans were identified during the Regional Consultative Meeting to Support the Development of Sexuality Education Lesson Plans, hosted in South Africa by UNESCO, UNFPA, and facilitated by Advocates for Youth.
