

## **Beyond barriers: Recommendations for adolescent sexual and reproductive health policies and programs in Belize, Guatemala, and Honduras**

New York: IPPF, 2014. 12 p.

### **Organizations:**

International Planned Parenthood Federation, IPPF, Western Hemisphere Region

### **Description:**

Beyond Barriers explores the adolescent sexual and reproductive health context in three Central American countries: Belize, Guatemala, and Honduras. The publication provides case studies of our work in each country, synthesizes the latest research regarding the barriers to providing young people with sexual and reproductive health information and services, and makes recommendations for addressing the barriers. These recommendations are meant to start a conversation with programmatic practitioners, decision-makers, and other interested stakeholders to improve youth-serving programs and enhance advocacy efforts.
