

The relevance to school health of Volume 8 "Child and Adolescent Development" of the third edition of Disease Control Priorities. Upcoming FRESH webinar

Apr 06, 2018

The relevance to school health of Volume 8 "Child and Adolescent Development" of the third edition of Disease Control Priorities

Presenters: Prof. Donald Bundy, London School of Hygiene and Tropical Medicine

Date: 16 April 2018, 9am EDT/ 2pm BST/ 4pm EAT/ 9pm SGT

The latest edition of the Disease Control Priorities (DCP 3) includes for the first time a volume on child and adolescent health and development. This proposes two essential packages, one specifically for school-age children. This webinar will explore the why, what and how of this proposition.
