Literature review: the last taboo: research on managing menstruation in the Pacific

Sydney: Burnet Institute, 2016. 31 p.

Organizations:
WaterAid Australia
Burnet Institute
International Women's Development Agency

Edition:
August. Literature review

Description:
This literature review examines the determinants and impacts of menstrual hygiene management (MHM), and effective interventions for improving MHM globally and in the Pacific. The review also seeks to describe Australian Government programming relevant to MHM in the three research countries and to identify opportunities for MHM programming.
