Description:

This regional report for Asia and the Pacific, provides an overview of the sexual and reproductive health and rights (SRHR) needs, issues, and priorities of young key populations (YKP), i.e. young men who have sex with men, young transgender people, young people injecting drugs, young people who sell sex, and young people living with HIV. The report addresses the gaps in knowledge on the SRHR needs of YKP in the region, offers recommendations based on a regional study, and contributes essential information for policy and advocacy efforts.
