## **The International Conference on (Re-)Emerging Infectious Diseases (ICREID)**

**When:**

Wednesday, March 13, 2019 to Friday, March 15, 2019

**Where:**

Addis Ababa, Ethiopia

**The 2nd International Conference on (Re-)Emerging Infectious Diseases** organized by the Africa Centres for Diseases Control and Prevention (Africa CDC) and Virology Education, is a global platform that will bring together experts from around the world involved in emerging diseases in an interactive conference setting.

ICREID aims at creating a highly scientific and educative abstract- driven conference consisting of key note speeches, state-of-the-art lectures, oral and poster abstract presentations, roundtable discussion, debates, and in depth discussions to exchange knowledge on the latest clinical developments and updates on ongoing and new trials on various emerging and re-emerging diseases.

This conference will provide a platform where new data will be translated to treatment and intervention guidelines and will create a unique opportunity for community building and networking in the region.

More details on the [conference website](#) [1].
